HOT TAPPING MACHINE E320

SPECIFICATIONS

Boring Bar:	66"
Tapping Range:	3" - 20"
Max. Operating Pressure:	1480PSI @ 100°F
Max. Operating Temperature:	
Standard Paking:	400°F @ 700PSI
Severe Packing:	700°F @ 700PSI

The model E320 Tapping Machine is the most powerful of the "300 series" machines, providing a tapping Size Range of 3 inch thru' 20 inch, with a Boring Bar Travel of 66".

The machine is hydraulically powered, via a dedicated Diesel Hydraulic Power Unit. As all the ENR Tapping Machines, the E320 is capable of operating up to 1480 psig, so allowing safe operations on lines up to full ANSI 600 operating pressure

The Machine is operated via dual HI-Power Hydraulic Motors, providing Speed Control Features at the machine, for ease of use
